

RAJESH ASHOK JAISWAL
AURORA SOLAR CHALLENGE
DATED: 24TH NOV 2017

TASK DETAILS STEPS

- 1) Created two separate data frames for CSI and ZIP data.
- 2) Then only fetched required column from above two data frames
- 3) Then implemented inner join with considering zip code as key column
- 4) Then Out putted required result to final csv.

Problem Faced:

- 1) Implying proper formatting of value to final
- 2) Then solved it my column level.
